
ENVIRONMENTAL POLICY

SpanSet® Australia Ltd recognises the impacts that its operations, activities and waste arising's have on the environment. It maintains a commitment to minimise the adverse effects of those impacts through the implementation and continual improvement of an Environmental Management System (EMS).

The Company's EMS will ensure compliance with environmental legislation and the prevention of pollution through appropriate risk control consistent with maintaining an exceptional service to its customers.

SpanSet® Australia Ltd is therefore committed to the following key policy principles:

- Integrating the consideration of environmental concerns and impacts into all of our decision making and activities
- Recognising that the minimum acceptable level of environmental performance is set out in current environmental legislation
- Setting clear environmental objectives and regularly monitoring progress against them – To include reduced consumption of Electric, Water and other Resources / Consumables
- Minimising the generation of waste and reducing its environmental impact through responsible disposal and recycling options
- Minimising the use and emission to the environment of any hazardous materials used in the Company's processes and activities and sourcing non-hazardous alternatives where commercially viable
- Purchasing recycled, recyclable and environmentally responsible products where possible, appropriate, available, economical and suitable
- Working in partnership with suppliers and customers to establish high environmental standards
- Promoting environmental awareness among employees and training staff about environmental issues that affect their work and their responsibilities in maintaining good environmental management
- Communicating the Company's Environmental Policy and commitments to all staff, suppliers, customers and other interested parties
- Comply to local, state and federal Environment protection policy
- SpanSet® shall make its EMS policy available to all interested parties upon written request and also through its website
- Encourage and enhance biodiversity and ecology
- Continually review its EMS policy and implement changes that affects its product, services and environment
