Rescue Stretcher

A robust, compact and lightweight stretcher. The flexible material combined to a smooth finish allows easy sliding and permits the stretcher to be rolled width ways or lengthways to facilitate transport.

No webbing passes under the stretcher preventing damage whilst dragging. Strong handles around the stretcher allow it to be maneuvered by several rescuers and the stretcher may be hauled vertically or horizontally.

The lifting strops secure and allow the stretcher to mould around the casualty.

- Conformance: CE 93/42/EEC CLASS 1
- Max Recommended User Weight: 400kg
- Width: 915mm
- Length: 2300mm.
