Stage Slings

Steel-Tex High Heat Resistant Round Slings

These lightweight roundslings are ideal for easy and inconspicuous suspension of stage sound and lighting equipment. Black sleeve material helps the sling blend into its surroundings.

The load bearing member of our Steel-Tex round sling is made of galvanised steel aircraft cable wound in an endless configuration. The wire core is encased in a heavy black polyester cover.

A unique inspection window with a velcro closure is located beside the capacity tag. This wide window allows for easy inspection of the core for broken wires or corrosion.

Rated at 2400kg and come in lengths of 0.9, 1.8, and 2.7 metres.
