EXCEL 2 Point Harness

CLIMA Harness

Rope Access Kit

CLIMA Work Position Lanyard

---

### EXCEL 2 Point Harness

**Product code: EXCEL 2P**

- Padded Full Body Harness incorporating comfort pads ideal for Fall Arrest and Work Restraint applications

- Front and Rear Fall Arrest Attachments
- Optional padded belt with work positioning attachment points, can be added retrospectively or supplied as a permanent integral feature
- Adjustable at leg loops, shoulders and chest
- Available in standard size, for larger operative see EXCEL ATLAS
- Quick-loc buckles for ease of fitting and removal
- Shoulder and Back Pad for increased comfort
- Steel attachment points and shoulder adjustment buckles
- Supplied with clear user instructions
- Individually serial numbered certification for traceability

### CLIMA Harness

**Product code: CLIMA Std/Lge**

- Front and Rear Fall Arrest Attachment Side-D work positioning attachment points on waist belt
- Central waist attachment for Work Positioning
- Adjustable at leg loops, shoulders and waist
- Available in standard or large size
- Attachment strap for chest ascender
- Plastic coated equipment storage loops on belt
- Fast clip buckle on chest for ease of fitting and removal
- Supplied with clear user instructions
- Individually serial numbered certification for traceability
- Pocket Inspection Guide

### Rope Access Kit

**Product code: ROPE ACCESS KIT**

- Complete Rope Access Kit - reflecting equipment used on rope rescue/IRATA training courses
- Clima Harness
- Dynamic Rope
- Safety Helmet
- Full components
- Supplied with clear instructions and individually serial numbered certification
- Industrial Rope Storage bag

### CLIMA Work Position Lanyard

**Product code: 5/2696 WPLANY-2M**

- Adjustable Lanyard for Work Positioning applications
- Screw link connector for semi-permanent attachment to waist belt
- Lightweight Captive Eye Alloy Double Action connector for ease of attachment
- Adjustable from 2m to 0.5m
- Constructed from kermantle rope to reduce weight
- Wear sleeve to protect rope
- Easy adjustment mechanism to set your position accurately
- Supplied with clear user instructions
- Individually serial numbered certification for traceability
- CE approved to EN358

---

## HEIGHT SAFETY

---

CLIMA Work Position Line 10m  
CLIMA Fall Arrest Lanyard  
TPAK 3 Loop Lanyard  
Adjustable Work Restraint Lanyard

---

- 
- Kernmantle Rope Positioning Line for Work Restraint
  - Steel autolock karabiners fitted at both ends for durability and security
  - Adjustable from 0.3m to 10m, other lengths available
  - Easy adjustment mechanism to set your position accurately
  - For Work Restraint and Work Positioning applications only
  - Supplied with clear instructions and individually serial numbered certification
  - CE approved to EN358
- 

---

### CLIMA Work Position Line 10m

**Product code: 5/2696-WPL 10M**

---

- 
- Twin Legged Energy Absorbing Fall Arrest Lanyard
  - Lightweight & durable construction
  - All components permanently captive for ease of maintenance & traceability
  - Kwiklock Aluminium Alloy/Steel Karabiners
  - Supplied with Product History Card & Pocket Inspection Guide
  - Individually serial numbered for Traceability
  - CE Approved to EN 355:2002/2004
- 

---

### CLIMA Fall Arrest Lanyard

**Product code: TPDC2**

---

- 
- Clip-back Lanyard for Fall Arrest and Work Restraint applications
  - Steel autolock karabiner complete with captive pin at each end
  - 1.95m in length including fittings
  - Supplied with clear user instructions
  - Individually serial numbered certification for traceability
  - CE approved to EN355
- 

---

### TPAK 3 Loop Lanyard

**Product code: TP3L252**

---

- 
- Adjustable length Lanyard for Work Restraint applications
  - Steel Autolock Karabiner for secure attachment to the harness
  - Steel Autolock Karabiner for anchorage to basket
  - Adjustable from 1m to 1.5m including fittings
  - Supplied with clear user instructions
  - Individually serial numbered certification for traceability
  - CE approved to EN358
- 

---

### Adjustable Work Restraint Lanyard

**Product code: RARL1079**

---

---

## HEIGHT SAFETY

---

Horizontal Safety Line  
The Attachment Sling 1m  
GOTCHA 50m  
GRABBA Safe Lifting Bag

---

---

### Horizontal Safety Line

**Product code: HSL-HH/LL**

- Temporary Horizontal Anchorage Line for Work Restraint and Fall Arrest
- Adjusts to a maximum working length of 20m
- Wear indicator built into the webbing for ease of inspection
- Integral storage bag for transport and stowage of excess webbing
- Supplied with clear instructions and individually serial numbered certification
- Pocket Inspection Guide
- CE approved to EN795 Class C

---

### Attachment Sling 1m

**Product code: ATSL 1M EWL**

- Temporary Anchorage Sling for Work Restraint, Work Positioning and Fall Arrest
- Available in a range of lengths
- Continuous polyester sling surrounded with a protective tubular sleeve MBS 70kN
- Supplied with clear instructions and individually serial numbered certification
- Pocket Inspection Guide
- CE approved to EN566 and EN795

---

### GOTCHA 50m

**Product code: GOTCHA 50**

- Work at Height Remote Rescue Equipment
- Available in various sizes - 50m, 100m & 200m
- Semi-static rope
- Rope Control Device
- PPE Rated Attachment Sling
- Single & Double Pullies
- Extendable Lightweight Pole
- Quick Release Rescue Attachment
- 3:1 Lifting Ratio
- Supplied with clear instructions and individually serial numbered certification
- Roll Top Storage Bag
- CE Approved to EN1496:1996 - Rescue Equipment - Rescue Lifting Devices

---

### GRABBA Safe Lifting Bag

**Product code: 5/3061/2/3**

- Safe and simple way to lift loose equipment
- Can be stacked two high for lifting
- Velcro roll top for weather protection
- Optional hard base moulded from impact resistant polymer
- Available in Small 75KG, Medium 125 KG and Large 250 KG SWL option
- Supplied with clear instructions and individually serial numbered certification
- Certified lifting bag EN 1492-1

---

## HEIGHT SAFETY

---

Safe Lifting Kit - 150 KG

Safe Lifting Kit Lite - 50KG

Stinger

Rat Trap

---

- 
- Quick and simple, foolproof rope hoist kit
  - Drop proof auto lock function
  - WLL 150kg
  - Factor of 7:1
  - Available in 25m and 50m height of lift versions
  - Can be used in conjunction with Grabba bag
  - Supplied with clear instructions and individually serial numbered certification
  - 2006/42/EC

---

### Safe Lifting Kit - 150 KG

**Product code: Lift Kit 150**

- 
- Lightweight rope hoist kit
  - Auto lock on lift only
  - WLL 50kg
  - Factor of Safety >10:1
  - Available in 12m and 25m height of lift versions
  - Supplied with clear instructions and individually serial numbered certification
  - 2006/42/EC

---

### Safe Lifting Kit Lite – 50KG

**Product code: Lift Kit 50**

- 
- Controlled tyre deflation
  - Compact & easy to deploy
  - Unique, patented, bi-directional rocking arm angles spikes for maximum effect
  - Multi-use, highly durable and designed for a long service life
  - Officer serviceable - spare parts available
  - Five year guarantee on all base sections
  - Available in 3 sizes and weights, to suit all applications.

---

### Stinger

**Product code: Stinger**

- 
- Prevents pursuits
  - Lower costs
  - Reduces liability
  - Fits in shirt pocket
  - Always ready for use

Applications:

- Warrant service
- Stolen vehicle surveillance
- SWAT operations
- Any time that an officer feels like a suspect might try to flee
- Small, quick, and easy!

---

### Rat Trap

**Product code: Rat Traps**

# TRAINING

Training  
More from SpanSet

## SpanSet Training

SpanSet is the first height safety training company to be audited by the BSI to the Standard BS8454:2006 – for the Delivery of Training & Education for Working at Height & Rescue.

By specialising in all areas SpanSet are able to address customer requirements more effectively.  
Design – Manufacture – Supply – Installations - Inspection - Servicing - Training.

The SpanSet modular training approach has been set up to offer a clearer explanation of the options available in safety training. This clearly structured hierarchical plan of training allows for planned progress. The police modules are specifically designed to cater for the needs of officers and support staff working at height today.

The courses range from a basic introduction to height safety and equipment awareness to the more technical search and rope access courses. Our training facility is split into compounds so that training activities do not conflict.

### Classrooms

- 5 Fully equipped classrooms

### Indoor Facility

- Rope access
- Rescue training
- Communications Tower

### Rooftop facility

- Fixed vertical systems
- Fixed horizontal systems
- Rooftop awareness

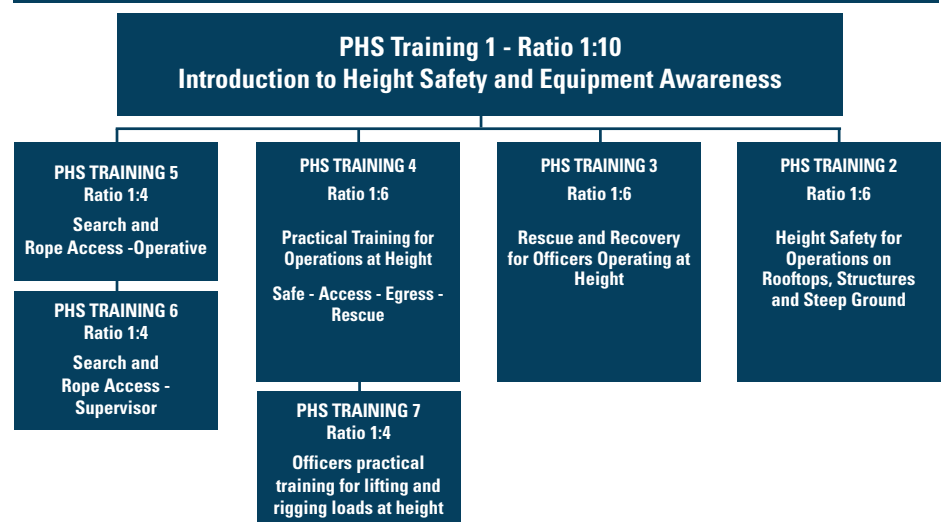

### Tower area

- 25 metre high pylon
- Confined Space Vessel
- Wooden utility poles
- Drop test rig

### Training Building

- Parapet and flat wall for abseil training
- 2 Identical bays for rescue training
- Ladders with fixed fall arrest systems and hooped ladders
- Lifting samples and trial lifting area
- Open steelwork
- Telecoms area
- 21 metre high lattice tower
- System scaffold tower
- Selection of dishes and antennas for rigging courses

## HEIGHT SAFETY COURSES FOR POLICE & SECURITY FORCES

## OTHER SERVICES

---

More from SpanSet

---

### Safeline Systems

SpanSet Safeline design, manufacture and supply a range of permanent Horizontal Life Lines when you combine these with SpanSet UK's range of height safety equipment you then have the total solution for your workers at height.

Safeline the total solution from survey – quoting – supply – installation – periodic testing & maintenance.

### Height Safety

SpanSet's vast history and experience of both hard and soft products provided the perfect background for the development of the innovative range of height safety equipment including the patented Horizontal Safety Line and the Gotcha Range of Rescue Equipment.

### Lifting Slings

SpanSet's Lifting products include the patented roundsling in the 1970's to the new generation Supra Plus round slings, the Joker Hook and also the High Capacity 100 tonne MagnumPlus roundslings. All aimed at improving safety in your industry and work place. Our products find themselves being used in the most brutal environments and the SpanSet Brand continues to be specified by industry and defence forces around the world.

### Load Control

Whatever the situation, whatever the load, whether lifting or lashing it is vital to know you are in control. That's why it's crucial to insist on SpanSet.

The SpanSet name has fast become the acknowledged industry term for industrial load control systems, only genuine SpanSet products offer the benefit of over forty years' development expertise – stretching textile technology to new limits.

SpanSet manufacture a comprehensive range of systems for securing your load - Commercial Vehicles lashings, Heavy plant equipment, vehicle recovery systems and light industrial restraints.

In short, on land, at sea or in the air, it pays to rely on SpanSet.
