BA 004 Beam Anchor
This I-Beam Clamp is one of the lightest and nimblest of its kind. Beyond its unmatched weight, the clamp incorporates a variety of unique components—all resulting in superior performance.

Aluminum flange hooks with bronze inserts make the clamp extremely sturdy, and drastically reduce friction from sliding along the I-Beam. A solid steel design and 7-series aluminum support rod give the beam anchor optimum strength.

An alloy steel 360° swivel D-ring allows for ultimate freedom when connected to a lanyard or attachment. Lightweight design doesn’t mean lightweight handling.

Material specifications:
- Support Bar: Aluminium Alloy
- Flange Hook: Aluminium Bronze
- Pawl: Zinc Plated Alloy Steel
- Swivel D-Ring: Zinc Plated Alloy Steel
- Flange Stops: Stainless Steel
- D-Ring Mount: Stainless Steel
- Mount Screw: Steel

BA 005 Beam Anchor
MIO Quick Fix Beam Anchor (patent pending) is designed to create a temporary fixed anchorage for personal fall protection systems on vertical I and H beams. This unit installs in seconds without tools. Quick installation is achieved via incorporated unique sliding/tightening mechanism. Anchor fits I-beam flanges from 10 to 35.5cm wide and up to 3.1cm thick.

- Installs easily
- Adjustable in seconds
- Provides vertical anchorage
- Provides an anchor point for personal fall protection and horizontal lifeline systems
- Available in either high grade aluminum or stainless steel
- Rated at 2,268kg
- Meets OSHA and ANSI requirements.
Training Courses

**Height Safety**
- Working Safely at Height
- Working Safely at Heights Refresher
- Height Safety Supervisor*
- Height Safety Manager*

**Rescue**
- Rescue Systems Operator*
- Vertical Rescue*
- Tower and Pole Rescue*
- Wind Access Rescue Technician*
- EWP Emergency Escape
- Gotcha Rescue

**Confined Space**
- Confined Space*
- Confined Space - Refresher*
- Breathing Apparatus*
- Confined Space Non-Entry Rescue*

**Inspection**
- Competent Person Practical Inspection and Record Keeping*
