

Training Equipment Standards Policy

SpanSet Australia Ltd advises that to deliver training courses to individuals or companies who supply their own personal protective equipment, that equipment must be certified to either Australian & New Zealand (AS/NZS), European (CE) or American (ANSI) Standards where applicable.

Where certification cannot be verified, SpanSet Australia Ltd reserves the right to withhold training services.

Note: These are the only limitations in relation to Personal Protective Equipment being used for the purposes of training. SpanSet Australia Ltd maintains our commitment to train with any brand, competitor or otherwise, without prejudice or favour.

Yours Sincerely

Phil Hubbard

National Operations Manager
