

## POWERLIFT TYPE 3 (FLAT EYE & EYE)

The Type 3 PowerLift sling features flat eyes on each end, making it versatile for vertical, choker, or basket hitches. Lightweight and flexible, it is easy to rig and remove, ideal for straight-line lifts and choker applications.

Constructed from high-strength polyester webbing, these slings are designed for durability and reliable load control. Available in multiple ply and width options from 1" - 12", with custom lengths available upon request.

- Flat eyes for 1" - 2", Tapered for 3" and up
- Lightweight and easy to handle
- Available in 1 - 4 ply and widths

SpanSet web slings provide exceptional flexibility and stretch resistance, making them ideal for lifting delicate or finished materials without damage. The soft synthetic webbing conforms to irregular or curved loads, distributing pressure

evenly to protect coatings, paint, polished surfaces, and structural steel. Unlike wire rope or chain, web slings minimize scratches, chips, or dents, ensuring load integrity. Available in reinforced and cut-resistant designs, they

combine surface protection with high-strength performance, making them perfect for sensitive lifting tasks in industrial, construction, and manufacturing applications where both safety and finish quality are critical.

## POWERLIFT TYPE 4 (TWISTED EYE & EYE)

Type 4 slings have twisted eyes set at a right angle to the body, allowing natural seating on crane hooks for a secure, stable connection. Perfect for choker hitches, they also perform effectively in vertical and basket configurations.

Made from heavy-duty polyester webbing, these slings deliver excellent durability and load control. Available in multiple ply and width options from 1" - 12", with custom lengths available upon request.

- Twisted eyes for secure crane hook seating
- High-strength, heavy-duty webbing
- Suitable for vertical, choker, and basket hitches
- Available in 1 - 4 ply and widths

## POWERLIFT TYPE 5 (EN) ENDLESS

The Type 5 endless sling is a continuous loop of high-strength polyester, combining flexibility with lifting power. Ideal for vertical, choker, or basket hitches, it protects delicate loads while delivering reliable performance.

Sewn end-to-end for maximum durability, Available in multiple ply and width options from 1" - 12", with custom lengths available upon request.

- Continuous loop design for gentle load handling
- High-strength polyester webbing for durability
- Suitable for vertical, choker, and basket hitches
- Available in 1 - 4 ply and widths
