Rig-Tech Harness

Order Code

2031284 - small
2031285 - medium
2031286 - large

What is it?

Professional work positioning harness for engineers who work at height. Ideally suited to pylon and mast climbers who climb to their work position. A lightweight alternative to our Pole-Tech harness.

What can it be used for?

Accessing places where work positioning techniques are required to securely hold the worker in place on pylons, masts and wooden poles.

What can I use it with?

- SP150 & SP140 Fall Arrest Lanyards
- CLIMA Work Position Lanyards
- DSL3 Energy absorbing lanyards
- Pole Straps

Who can use it?

Available in three sizes, designed for users of approximately 50 to 150kg.

How long will it last?

- The product has a 10 year period of obsolescence.
- The lifespan will also be reduced by the effects of damage, wear and tear.
- The lifespan will cease at the point when any one of these conditions is met.
- The condition of the product must be controlled in accordance with BS8437:2005, this requires regular inspections to be carried out by a competent person.

How has it been tested?

- Type tested and CE marked for Europe under the PPE Regulations to EN361 & EN358.
- Additionally, the webbing has been UV tested to the requirements of Australia standard AS/NZS 1891.1:2020 and ANSI Abrasion.
- The SpanSet manufacturing process is quality controlled and audited by the British Standards Institute to the international standard for quality management ISO9001.

Rig-Tech Harness

What is it made from and why?

- Aluminium quick connect buckles for ease of fitting
- Supple 45mm webbing for comfort
- Floating D Rings for positioning to reduce fatigue and strain
- Padded breathable mesh for comfort with prolonged use
- 10kg Rated Gear Loops for tool tethers

Additional SpanSet Features

All SpanSet height safety products are individually serial numbered. The Rig-Tech harness is RFID tagged for traceability.

What paperwork is supplied?

- Multilingual Instructions with pictorial fitting guide.
- Individual Product History Card - This record card contains all the documentation required to maintain the product. The front forms your Declaration of Conformity and the table on the reverse can be completed for your inspection record.

What training is required?

Working at height carries significant risk, so it is vital that all users are properly trained in pre-use inspection, fitting, adjustment and correct use of their harness. As long as the harness fits correctly, it will safely support the user.

Although in itself this is a simple item to use, there are several stages that should be considered as part of the process as a whole. Training is available for all the stages outlined at the SpanSet training school in Middlewich or subject to suitability on a site of your choice.

- **Assessment and Planning**
Management of Work at Height
- **Use**
Height Safety Equipment and Appreciation and Competent

Person Practical Inspection and Record Keeping (Harnesses and Lanyards).

- **Inspection and Maintenance**

Height Safety Equipment Appreciation and Inspection
Competent Person Practical Inspection & Record Keeping (Harnesses and Lanyards).
